

Vexar® Knitted Netting

As a leading supplier to the erosion control industry, Conwed is your only source for both knitted and extruded wattle netting. Conwed provides superior performance and consistent quality throughout our full line of wattle netting.

Wattles made with Conwed Vexar® knitted netting offer an economical and efficient way to prevent soil erosion by slowing and spreading water flow and reducing slope lengths.

- Reduced splitting or tearing of the netting
- Improved conformity to the terrain in the final installation.
- Superior yields means more wattle produced per foot of netting compared with extruded net.
- The flexibility of knitted wattle netting eases loading and handling during manufacturing.
- Degradable options available.

Conwed is a dedicated supplier to the erosion control industry. We manufacture erosion control blankets netting, knitted and extruded wattle netting, silt fence reinforcement netting and now Prostran® erosion control fibers. Conwed supports the industry through memberships in the Erosion Control Technology Council (ECTC) and the International Erosion Control Association (IECA).

Your Complete Source for Wattle Netting

Knitted Wattle Netting Typical Properties

STD. PART NO.	DIAMETER	RL LGTH	HOLE SIZE	RL WT	TENSILE
	INCH	FEET	APPROX INCH/SQ	LBS	GM/DEN
Unrucked Products					
J068-A2S-001	9"	300'	1/2	2.65	7
J044-C3S-004	9.5"	300'	1	3.60	4
J088-A2S-002	12"	300'	1/2	3.40	7
J044-C3S-003	12.5"	300'	1	3.60	4

Vexar® Extruded Netting

Conwed Vexar® extruded wattle netting provides erosion and sediment control as well as soil stabilization. Our tubular netting is UV-stabilized, flexible, lightweight, reusable and available in a variety of diameters for your specific requirements.

Extruded Wattle Typical Properties

STD. PART NO.	DIAMETER		ROLLS SKID	WEIGHT		TENSILE
	INCH	FEET		G/M	LBS	
NRC370-013	7"	1,000	24	30	30	18
NRC287-001	9"	3,000	10	40	82	30-34
NR888-001	12"	3,000	18	32	65	18
NRC916-002*	17"	2,000	18	48	69	15
NRC487-001	20"	2,000	18	45	59	20
NRC603-001	21"	2,000	18	48	64	19

*NRC916-002 has smaller holes for smaller aggregate
